National Data Opt-out Training

Helping staff to understand and comply with the national data opt-out policy

This course, developed in partnership with NHS Digital, is designed to provide trust and protection for the use of confidential patient information throughout health and care services.

Course Name	Provider
000 National Data Opt-out Training	HEE e-Learning for Healthcare

Advanced Threat Protection

Supporting security administrators and operators to predict, prevent, detect and respond to cyber security threats impacting Windows end user devices within the NHS

This course has been developed in partnership with NHS Digital, with the aim to upskill NHS administrators to use the Microsoft Advanced Threat Protection (ATP) service. This new service, purchased centrally by the Department of Health and Social Care, is for the benefit of local NHS organisations and the NHS as a whole.

This e-Learning course is for occupational therapists working in perinatal mental health services and those who are new to or wishing to work in this specialist area of practice. It has been developed by the Royal College of Occupational Therapists in collaboration with Health Education England e-Learning for Healthcare.

Course Name	Provider
000 Perinatal Mental Health for Occupational Therapists	HEE e-Learning for Healthcare

Intelligent Intermittent Auscultation (IIA) of the fetal heart is the recommended method of fetal monitoring for all women who are considered at low risk of fetal hypoxia during labour. It is therefore a fundamental skill of all midwives in any birth setting.

This course aims to improve safety for mothers and babies in low risk labour and birth by improving the knowledge, skills and confidence of midwives to undertake intermittent auscultation of the fetal heart in an intelligent manner (IIA). This will ensure early recognition of deterioration or abnormalities in the fetal heart rate and that situations requiring escalation and a move to continuous electronic fetal monitoring are recognised in a timely manner.

Course Name	Provider
000 Intelligent Intermittent Auscultation in Labour	HEE e-Learning for Healthcare
