Where attendees would like to submit questions we would ask that they are submitted ahead of time. The deadline for submitting questions will be two weeks before each scheduled workshop. Questions can be submitted here. We will then cover as many questions within the workshop examples as possible.

Following registration, delegates will receive email confirmation that a place has been booked together with a link to check PC software settings.

Please ensure that you are able to use the webinar software prior to joining the session, it is recommended that where possible delegates use the "Dial In" audio option if there is any doubt as to the quality of the internet connection being used.
