DETAIL

COVID-19 Recovery and Rehabilitation

An interactive e-learning resource for healthcare staff, exercise professionals and carers working with people recovering from COVID-19

As the COVID-19 pandemic has unfolded, it is recognised that those who recover often continue to display a range of physical and psychological symptoms that require therapy and support.

The COVID-19 recovery and rehabilitation course aims to provide you with strategies and techniques to manage key symptoms experienced by people recovering from COVID-19.

Freedom to Speak Up in Healthcare in England
Speak Up, Listen Up, Follow Up

National Guardian
Freedom to Speak Up

This training is for everyone wherever they work in healthcare and explains clearly and consistently what speaking up is and its importance in creating an environment in which people are supported to deliver their best. It will help you understand the vital role you can play and the support available to encourage a healthy speaking up culture to benefit patients and workers.

Intended Audience	All Learning Administrators and e-Learning users	

Public Health England (PHE) has produced a Health Equity Assessment Tool (HEAT) to enable professionals to systematically identify and address health inequalities and equity in their work programmes or services. This e-learning supports the use of the tool, providing the context and purpose, outlining the benefits of using the tool, and taking the learner step-by-step through each stage of the tool. It also provides a general introduction to health inequalities and equity and examples of good practice.

Course Name	Provider
000 Health Equity Assessment Tool	HEE e-Learning for Healthcare

Updates have been made to the existing course 000 Perinatal Mental Health.

In addition, a new course 000 Perinatal Mental Health for Health Visitors, has been created:
