

UN3000 1 of 1 25 th FEB 2021	Electronic Staff Record Programme USER NOTICE	
Title	ESR Transformation Programme: ESR Discovery online MSS survey	
Purpose	To inform ESR users of the ESR Discovery online user survey	
Intended Audience	ESR Leads and Manager Self Service Users	

SUBJECT

The NHSBSA ESR Discovery project is launching an online MSS survey via the ESR Portal.

DETAIL

Following on from UN2994 published on Monday 22nd February 2021 about the ESR Discovery project, ESR Leads are advised that from w/c 1st March 2021 the NHSBSA Discovery researcher team will be launching a user survey for Manager Self Service (MSS) users. The survey will be accessible to all MSS users via a pop-up message in the ESR Portal that will display once the user has logged into ESR.

User input into the ESR Discovery is really important, so we ask organisations to make MSS users aware of the online survey and encourage participation where possible.

An information page about the ESR Transformation Programme has been added to the [ESR Hub](#), giving an overview of the ESR Transformation Programme and the roadmap timeline. A set of [FAQs](#) are also available via the ESR Hub to answer some of the more frequently asked questions from stakeholders and users. Regular updates about the project will be communicated via the ESR Hub and other ESR communication channels.

ACTION REQUIRED

Please raise awareness of the forthcoming ESR Discovery online survey for MSS users.
