UN3027 1 of 5 14th APR 2021	Electronic Staff Record Programme USER NOTICE	NHS
Title	National e-Learning Changes April 2021	
Purpose	To advise users of changes to national available e-Learning	
Intended Audience	All Learning Administrators and e-Learning users	

SUBJECT

Updates to e-Learning courses are available in ESR.

DETAIL

This e-Learning programme aims to standardise training and knowledge of frailty as a complex multi-system, long term condition. It strives to promote a common language in frailty care and is designed to support enhanced clinical skills and competencies to be embedded within the existing workforce.

Course Name	Provider
000 Frailty Tier 1	HEE e-Learning for Healthcare
000 Frailty Tier 2a	
000 Frailty Tier 2b	

This course has been designed to introduce you to contact tracing as a public health tool within the context of COVID-19 (SARS-CoV-2). You will gain a better understanding of COVID-19 as a communicable disease, how it is spread from person-to-person, how to apply the contact tracing model to a variety of scenarios, and understand approaches to consequence management.

Course Name	Provider
000 COVID-19: Contact Tracing at the Community Level	HEE e-Learning for Healthcare

Purpose	To advise users of changes to national available e-Learning
Intended Audience	All Learning Administrators and e-Learning users

This course is aimed at hospital-based pre-registration pharmacists to aid their learning of the Community Pharmacy contract and provision of unscheduled care in the community. The programme will also introduce trainees to the role of the General Practice (GP) Pharmacist.

Course Name	Provider
000 Pharmacy in Primary Care	HEE e-Learning for Healthcare

The Technology Enabled Care Services (TECS) toolkit for students, educators and universities offers a framework to prepare, supervise and evaluate students' practice learning opportunities in a TECS environment.

The toolkit has been developed in response to the COVID-19 pandemic with students now undertaking some placements online. It aims to support creativity and innovation while providing a structure in the way TECS placements are offered to ensure patient safety and appropriate practice learning.

Course Name	Provider
000 TECS Practice Learning Toolkit	HEE e-Learning for Healthcare
