

UN3175 1 of 2 20 th JUNE 2022	Electronic Staff Record Programme USER NOTICE	
Title	MM-0100 Organisation Site IT, Printer and Network Infrastructure Readiness	
Purpose	To inform ESR users of the changes made to this document.	
Intended Audience	IT departments of ESR users.	

SUBJECT

This notice is to inform users of the updates made to the MM-0100 document.

DETAIL

Version 34 of the MM-0100 document has recently been released. It references the current supported versions of client software.

The following is a list of the key sections of MM-0100 that have been updated:-

Section	Change
2.1	Microsoft Edge is now the supported browser
4.4 *	Recommendation on the use of IE11 Compatibility Mode in Edge
8	From Release 55, Windows 21H2 is the supported version of the Operating system and JRE support changes to 1.8.0.333
9.2	Multiple sessions in the browser
14	Accessing ESR via Microsoft Edge

- * In addition, organisations should be aware that ESR is not tested using Edge in IE11 Compatibility mode.

Also, the option to run Edge in IE11 Compatibility mode for users accessing ESR core forms will need to be disabled towards the end of the current year.

At that time, all users accessing ESR core forms will need to use Edge in native mode. Self Service users will be unaffected.

ACTION REQUIRED

Please share this version of the document with your IT Department or IT Provider.

FURTHER INFORMATION

The new version of the MM-0100 document can be found [here](#). You will need to be logged into ESR to view the document.
