Where a National Competency is not available for an FFP3 mask, then it should be recorded as a Local Competency.

Staff who have been trained by a Fit2Fit accredited trainer to carry out fit testing to NHS staff on FFP3 masks should be assigned the following competency from the date when the training was completed.

ESR Competency Names			
<i>Trust ID</i>	<i>Type</i>	<i>Competency Name</i>	<i>Renewal</i>
NHS	MAND	FFP3 Fit Tester	3 Years

ACTION REQUIRED

Staff should be assigned the competency/competencies for the mask(s) they have been successfully fit tested for from the date when they were fit tested. Unsuccessful fit tests should not be recorded.

Staff who have been trained by a Fit2Fit accredited trainer to carry out fit testing to NHS staff on FFP3 masks should be assigned the NHS|MAND|FFP3 Fit Tester| competency from the date when the training was completed.

FURTHER INFORMATION

It is recognised that organisations may have recorded fit testing data in different ways and on different systems to meet national reporting requirements and enable local monitoring. In order to assist the recording of fit testing data within ESR the ESR Central Team can support the initial bulk uploads of existing data via the mass update service.

Organisations should raise an SR to request the initial loads with the expectation that processes and future procedures will then be developed to record the data within ESR going forward.

Capturing this data in ESR enables national and organisation level monitoring of FFP3 resilience and allows the data to transfer with the person via IAT if they move from one organisation to another.
