SUBJECT

Notification of the removal of obsolete Whitley payscales from ESR

DETAIL

A review of the data held in ESR has been undertaken and a number of obsolete Whitley payscales are to be end dated at the end of September 2022. They will be removed in Release 55, over the weekend commencing 30th September 2022.

The payscales have not been used in the system for a considerable amount of time and as such will be ended on the 30th September 2022 and will no longer be available to select. Any historical pay records will not be affected by this change.

Details of the payscales to be removed are on the attached spreadsheet.

Please note this does not remove all Whitley payscales, as some have been incorporated into local payments and therefore will remain active.
