Title	National e-Learning Changes - November 2022	
Purpose	To advise users of changes to national available e-Learning and associated competence.	
Intended Audience	All Learning Administrators and e-Learning users	

SUBJECT

Updates to e-Learning courses are available in ESR.

DETAIL

The Oliver McGowan Mandatory Training on Learning Disability and Autism

Enabling the health and care workforce in England to better support people with a learning disability and autistic people

The Oliver McGowan Mandatory Training aims to provide the health and care workforce with the right skills and knowledge to provide safe, compassionate and informed care to autistic people and people with a learning disability. This requirement is set out in the Health and Care Act 2022.

The elearning is the first part of The Oliver McGowan Mandatory Training and everyone in health and care needs to do this no matter where they work and what tier of training they need to complete.

Later staff will need to complete their training by attending either a one hour online interactive session (for Tier 1) or a one day face to face training (for Tier 2) that will be available from early 2023.

For further information, please visit [The Oliver McGowan Mandatory Training on Learning Disability and Autism webpage](#).

Course Name	Provider
000 The Oliver McGowan Mandatory Training on Learning Disability and Autism	HEE e-Learning for Healthcare

A new competency has also been created:

ESR Competency Name			
Trust ID	Type	Competency Name	Renewal
NHS	MAND	The Oliver McGowan Mandatory Training on Learning Disability and Autism Elearning	No Renewal

Additional competences for the Tier 1 and Tier 2 training will be created nearer to the date when this additional training is available.

Learning resources for health professionals
caring for children and young people with asthma

Professionals within your organisation who work with or care for children and young people with asthma can access training to improve their knowledge and help to care for children and young people with asthma in the best way possible.

The training is split into five tiers; the first tier targets a range of people working closely with children and young people; such as those based in schools and out of school clubs.

Tiers two, three, four and five have been designed for healthcare professionals.

NHS England has been working with a national working group for training and education and the training and capabilities are now hosted by Health Education England.

Currently the UK has some of the highest death rates in Europe for childhood asthma and outcomes are worse for those living in the most deprived areas. NHS England is committed to improving outcomes for children and has published the [National bundle of care for children and young people with asthma](#) to support asthma care.

This training provides a clear structure for both health and non-healthcare professionals to understand what knowledge they need.

The following training has been added to ESR, the existing course 000 Asthma (Children and young people) covers the Tier 2 content.

Course Name	Provider
000 Children and Young People's Health: Improving Asthma Care Together - Tier 1	Education for Health
000 Children and young people asthma training for tier 3 providers	HEE e-Learning for Healthcare
