

UN3245 1 of 1 05 <sup>th</sup> December 2022	Electronic Staff Record Programme USER NOTICE	
<b>Title</b>	Update for the Pay Advice Message for December 2022 to March 2023 payslips	
<b>Purpose</b>	To advise ESR Organisations of an update regarding the Pay Advice Message required for payslips for the period December 2022 to March 2023	
<b>Intended Audience</b>	ESR Payroll Users	

## SUBJECT

Update on the Pay Advice message for December 2022 to March 2023 payslips.

## DETAIL

Further to UN3243, the payslip message that was due to be added to payslips from December 2022 has been withdrawn until further notice.

NHS England have requested where possible, that the information contained in the message is promoted via local communications. As a reminder, the message to be promoted is as follows:

NHS England is offering all NHS staff free access to the [NHS Digital Weight Management Programme](#). 15,000 staff members have already benefitted from the free 12 week online programme.

You can self-refer if your BMI is 30 plus.

The BMI threshold is 27.5 for people from Black, Asian and ethnic minority backgrounds.

This is because we know people from these backgrounds are at an increased risk of conditions such as Type 2 diabetes at a lower BMI.

[If now is the right time for you, find out more about the programme and start your journey.](#)
