1 Introduction

The purpose of this document is to provide details of the enhancements to the ESR system in Release 68.3.0.0. The details are grouped in functionality order.

The changes to functionality outlined in this Release Notice are subject to successful testing. As is normal practice, any amendments to the content of the Release will be communicated in a revised Guide to Enhancement Notice.

NOTE: All Employee data used in this publication is fictional. Any similarity with the names used in this publication with the names of actual persons is purely coincidental and not intentional.

2 Update to Supplementary Roles

Following a review of the supplementary roles undertaken in collaboration with the Workforce Information Review Group (WIRG) a number of roles have been identified as either redundant or superseded by other available values.

Where users have set local GRR rates for the elements shown above then these may need to be amended locally to reflect the change in the national rates.

Additionally, where an amount has been entered in the Period Lump Sum input value this value will have to be zeroed manually as the element will not be automatically ended.

5 Change to NHS Interface Extract

The 'Priority' field, relating to the order used in multiple bank account payments, has been added to PMA record type in the GO2 Changes Interface.
