Title	Release 44.3.0.0
Purpose	To inform Users on the release content
Intended Audience	All ESR users

The following items are resolved Release 44.3.0.0 which will be implemented over the weekend commencing 6th March 2020, within the communicated downtime window. Please refer to **UN2856 - Release 44 3 0 0 Notification of Downtime** for further information.

Ref ID	Description	Process Area
PRB2001267	**Restricting the check to employee/applicant person types** Release 44.3.0.0 will ensure that the existing person check, that is performed when creating a new employee or applicant, is restricted to looking for existing Employee or Applicant person types only.	HR \ Hires/Rehires
PRB2001220	**Find Learning functionality** The Find Learning functionality available from the My Compliance portlet, Learner Homepage and Compliance and Competency form was displaying end-dated course components for Learning Certifications. This has now been resolved. **Please note**: If a certification is due for renewal, users will be required to renew the certification before they see any updates that have been made to course components.	Learning Management \ Enrolment
PRB2001255	**IAT Standard Reference does not always generate absence details** IAT Standard Reference template does not always generate absence details if a person has multiple application records and one or more of them do not have a status of offer or accepted even if one does have a status of offer or accepted. This issue is now resolved.	Notifications \ HR
INC2015785	**Update to Added Years Pension Capping rate** The Capping limits have now been updated for 2018 and 2019 for NHS Pension Added Years contributions. Retropay will not trigger automatically unfortunately so an Assignment Set will need to be created for potentially affected employees for use with Retropay by Element The Employees by Element List should be run and used to identify potential employees for the Assignment Set.	Pay \ Elements \ Pension

PRB2001251	**Multiple addresses were being returned for a single paypoint** This release will resolve an issue where assignment records were showing an incorrect payslip address where the paypoint location address has been changed and there had been no subsequent changes to the assignment.	Reporting \ BI
PRB2001260	**Age bands** This release resolves an issue where employees are showing as being in the next age band for a few days before they are actually due to be in that age band.	Reporting \ BI
PRB2001266	**'Supervisor Assignment Number'** The 'Supervisor Assignment Number' data item, displayed no value when the Start Date of the Supervisor Assignment is later than that of the reportee. This has now been resolved.	Reporting \ BI
PRB2001265	**Pay Balance subject area** The Pay Balance subject area was not showing latest employee details. This issue has been resolved.	Reporting \ BI
