INC2015869	<p>TYE 2019/20 - New RTI FPS Amendments for 2019/20 (replacement for the EYU)</p> <p>In line with HMRCs specifications ESR has been updated to start using the continual FPS rather than an EYU for 2019/20. The new concurrent process is called 'NHS RTI FPS Amendments XML Process 2019/20'. This process should be submitted in a similar method to the equivalent EYU processes, as many times as required throughout the tax year. However whereas the EYU reported only the adjustments made, the new FPS Amendments will report all of the Year to Date values for the relevant assignments processed.</p> <p>Below is screenshot of the new request:</p>  <p>PAYE Reference</p> <p>This is a required parameter. The process will check all assignments attached to the requested PAYE Reference and only create an archive for those assignments which have data items that need to be updated from a previous FPS submission.</p> <p>If there is only 1 PAYE Reference available, then this will be defaulted in, otherwise the parameter will</p>	Pay \ RTI \ EYU

	<p>be left blank and the user will have to select the relevant PAYE Reference.</p> <p>Assignment Set This is an optional parameter. If used this restricts the process to the assignments detailed in the assignment set. The process will then report on all of the chosen assignments regardless of whether there have been adjustments entered or not.</p> <p>When you submit the new process you see the following actions:</p>  <p>RTI - Full Payment Submission (FPS) - Amendments 2019/20</p> <p>The output from this details the assignments which have been selected and whether they have been successful or not:</p>

	<p>GB IRMark Generator</p> <p>This is a background process used with the other process to create files to be sent to HMRC.</p> <p>NHS RTI FPS Amendments Run Reconciliation Report</p> <p>This is the reconciliation report produced, that shows all of the assignments included in the archive. The format is similar to the normal FPS reconciliation report, but although the this period values are listed, there will never be an entry in these fields as the purpose of this process is only to update the year to date values held by HMRC. Below is an example of the output:</p>  <p>Example FPS Amendments Rec.xls</p> <p>To ensure that all your RTI records balance against the Payroll YTD totals and to work out the pay over to HMRC you need to follow these steps each time you use the new process:</p> <ol style="list-style-type: none"> 1. Before you make any changes or commence running the 'NHS RTI FPS Amendments XML Process', you should submit the 'NHS RTI Year to Date Reconciliation Report Process' and take a copy of the report totals from the bottom of the spreadsheet. This will give you the YTD balance before any adjustments are made. You should check that these figures balance to your previous YTD figures. 2. Make the relevant adjustments that you require 3. Process the 'NHS RTI FPS Amendments XML Process 2019/20', making sure that there are no errors. 4. Submit the 'NHS RTI Year to Date Reconciliation Report Process' and take a copy of the report totals from the bottom of the spreadsheet <ol style="list-style-type: none"> a. There should not be any new discrepancies reported, these should be cleared before proceeding. 5. Compare the results of the 2 report totals, the differences are the changes that have been made and the amounts that need to be adjusted in your next pay over to HMRC. Below is an example:  <p>Example YTD Rec comparison.xlsx</p>

	<p>When you are satisfied that everything is in order with the reconciliation process, you can now submit the file to HMRC. This is done by using the same form as with all other files that need to be sent to HMRC:</p>  <p>Remember to change the year to 2019-20 as the form will default to 2020-21. In addition select the Full Payment Submission Amendments as the file type. Then select the file you want to send and click on the upload button.</p> <p>Users are reminded that when they are making changes to an assignment they need to make sure that any amendments to Statutory Payments have the relevant adjustments made to the recoverable amounts via processing the EPS.</p>
