RN468 1 of 3 25 March 2021	Electronic Staff Record Programme RELEASE NOTICE	NHS
Title	Release 49.1.0.0	
Purpose	To inform Users on the content of the Release	
Intended Audience	All ESR users	

The following items will be resolved in Release 49.1.0.0, which is scheduled for the 26th March 2021. For the related downtime, please refer to **UN3015 - Release 49 0 0 0 and 49 1 0 0 Notification of Downtime**

Ref ID	Description	Process Area
PRB2001693	**Afc Band Data missing for Welsh Organisations** There was an issue in the Data Warehouse whereby no data is returned in the 'AfC Band' field when reporting on Welsh organisations. This has now been resolved.	Data Warehouse
PRB2001763	**Workforce Composition Subject Area** Within the Workforce Composition Subject Area, the Home Address of an employee could display the previous address, rather than the current address. This has been resolved.	Data Warehouse
PRB2001755	**Workforce Composition Subject Area** Within the Workforce Composition Subject Area, the Residency Status was not reported consistently when there are multiple records held against an employee Data Warehouse. This has been resolved.	Data Warehouse
PRB2000921	**National Learning Objects** National Learning Objects associated with Local Offerings are not available in the Data Warehouse This has been resolved.	Data Warehouse
PRB2001818	**Removing assignment next change** Deleting the Next Change in the Assignment form could take an elongated amount of time. This has been resolved.	HR \ Assignments

NOT PROTECTIVELY MARKED

Title	Release 49.1.0.0
Purpose	To inform Users on the content of the Release
Intended Audience	All ESR users

PRB2001822	**Subjective Code applied to new starters** This release resolves the issue whereby hiring a new starter with multiple assignments causes the subjective code to be duplicated across all their assignments. Now when hiring a new starter with multiple assignments, the assignment subjective will be correctly defaulted from the corresponding assignment position.	HR \ Hires/Rehires
PRB2001769	**Inbound Interfaces** An issue that affected the inbound interfaces when loading Competence Requirements against assignments has been resolved.	Interfaces \ Other
PRB2001581	**Internal Trainer Resource Booking** When adding an Internal Trainer Resource Booking to a Category chat the following message was returned: Error: You are not allowed to modify or delete this value as it does not belong to the Trust under which you are currently working. This has been resolved.	Learning Management \ Resources
PRB2001837	**Ensure IAT Competence Upd notification and Competence page show applicant assignment details** This release will resolve the issue where, under certain circumstances, the IAT Competency Update notifications do not show the applicant assignment information in the notification text. It also resolves the issue where, under certain circumstances, the IAT Competence Management page does not show any values for the applicant details region on the page. This resolution should not impact any in-progress IAT Competence updates.	Notifications \ Competencies
PRB2001662	**Competence expiry notification** The Competence Expiry Notification contained a link titled 'Portal Landing Page' instead of the ESR URL. This has been resolved.	Notifications \ Competencies
PRB2001892	**Correct opt out logic for competence expiry notifications** An update has been made to the competence expiry notification process, to ensure	Notifications \ Learning Management

Title	Release 49.1.0.0
Purpose	To inform Users on the content of the Release
Intended Audience	All ESR users

	the opt out setting is correctly observed for all trusts.	
INC2019361	**Payslip and P60** It is possible for a User to receive the following error message when downloading their Payslip and/or P60 in Employee Self-Service: 'Failed to retrieve VPD context – please raise an SR with the ESR Service Desk' If this is received, we would ask the user to raise an SR with the error message so it can be investigated accordingly.	Pay \ Pay Advice
PRB2001843	**National competencies** The addition of National competencies to employees was not recorded in the change event log. This has been resolved.	Reporting \ BI
