

RN511 1 of 7 29 th September 2022	Electronic Staff Record Programme RELEASE NOTICE	
Title	Release 55.0.0.0	
Purpose	To inform Users on the content of the release	
Intended Audience	All ESR Users	

Release 55.0.0.0 is scheduled to be deployed over the weekend commencing 30th September 2022. Please refer to **UN3219 - Release 55 0 0 0 and 55 1 0 0 Notification of Downtime** for the related downtime information.

Action required	Users are requested to action all outstanding Workflow Notifications prior to the downtime.
For info	There will be a JAR file download for all Forms users as part of the release. This will take place upon users logging in and accessing Forms. The initial download might cause a slight delay. Users who are home working may experience longer delays and we ask you to be patient.

Service Desk Reference	Description	Process Area
PRB2002212	Sickness Absence When a Sickness Absence is amended for terminated assignments which results in OSP Half Pay entries, then an incorrect payment can be made (when Retropay is run). This has been resolved.	Absence \ Sickness
INC2024972	ESR Downtime Holding Page The holding page displayed when the ESR service is unavailable has been updated to improve accessibility. The basic functionality remains unchanged in that users can still navigate from the page to view their payslip or continue to the ESR hub. Desktop View: 	Access Security \ ESR Via a Device
PRB2002265	Wfc Conflict of Interests folder	Data Warehouse

Title	Release 55.0.0.0	
Purpose	To inform Users on the content of the release	
Intended Audience	All ESR Users	

PRB2002325	AfC AL Eligibility framework page Users were able to create a Local AfC Average AL Eligibility Scheme with zero values. The following validation rules will now be enforced: Monthly eligibility values must have a min value of 1 and a max value of 12. Weekly eligibility values must have a min value of 1 and a max value of 52. Only whole numbers can be entered for weekly or monthly eligibility values.	Pay \ Element \ Allowance
PRB2002290	NHS Update NI Category Process The NHS Update NI Category Process was not updating the NI category from 'A' to 'C' for some employees when they reach state pension age. This has been resolved.	Pay \ Element \ NI
PRB2002187	Pension Add Yrs elements An issue may occur during the processing of Pension Add Yrs elements in a Sickness period. The Pension Add Yrs element attempts to calculate the pension based on the pensionable pay during the period prior to the Sickness leave. However in the situation, where non-recurring elements were used during that period prior to the sickness are still present in a subsequent period where there is a sickness absence, the Non-recurring elements are double counted for the purposes of Add Yrs pension. This Release will resolve the issue. This change is not retrospective.	Pay \ Pension \ Auto Enrolment
PRB2002246	RTI FPS process The FPS archive was reflecting period values in the Year-to-Date value fields for payroll benefits in-kind. In cases where those values are negative the FPS would error. This has been resolved	Pay \ RTI \ FPS
