Title	Release 56.0.0.0
Purpose	To inform Users on the content of the release
Intended Audience	All ESR Users

Release 56.0.0.0 is scheduled to be deployed on 30th December 2022. Details on the downtime relating to this will be advised in a separate User Notice nearer the time.

For info	**Concurrent Requests:** **Users might encounter a "VALIDATION ELSE" message against concurrent requests if they click on View Details on a child request, this can be closed by clicking Ok.** **It is advisable to query back the parent request instead to check the parameters entered.**
Action required	**Users are requested to action all outstanding Workflow Notifications prior to the downtime.**
For info	**There will be a JAR file download for all Forms users as part of the release. This will take place upon users logging in and accessing Forms. The initial download might cause a slight delay. Users who are home working may experience longer delays and we ask you to be patient.**
