Ref ID	Description	Process Area
PRB2002584	AfC/Bank Average Pay - trigger validation updates An update has been made to the validation of the AfC Average Pay NHS and Bank Average Pay NHS elements, to allow date-tracked changes to be made to these elements. This change will also enable the elements to be end-dated and replaced by the relevant element required for the employee. For example, employee previously had the AfC Average Pay NHS element attached to their record, and instead now requires the Bank Average Pay NHS element.	Pay \ Element \ Allowance

NOT PROTECTIVELY MARKED
