## Design Assumptions

The following design assumptions have been made and can be applied to all analyses and dashboards:

1. All analyses have an export button to enable the user to export to their format of choice.
2. All analyses have an 'Add to Briefing Book' button enabled to allow the user to group national analyses together into a board-report type document.
3. All dashboards are designed on a screen resolution of 1024 x 768 pixels to prevent horizontal scroll bars being displayed (except where wide tables of data are required).

## Examples

Where applicable, the examples included in this document contain fictional data only. The names and other personal details are fictional although look realistic enough to provide a useful example.

## Workforce Information Verifier Dashboard

### *Description*

The Occupation Code and Job Role Verifier Dashboard has been developed to help identify possible discrepancies between Occupation Code, Staff Group/Job Role and Pay Band that may exist within Assignments and their related Positions held in the ESR.

### *Allocation*

This dashboard is available to the following URPs:

XXX BI Administration  
XXX HR Administration  
XXX HR Administration (With RA)  
XXX HR Management  
XXX Local Workstructures Administration

### *Prompts*
