Design Assumptions

The following design assumptions have been made and can be applied to all analyses and dashboards:

1. All analyses have an export button to enable the user to export to their format of choice.
2. All analyses have an 'Add to Briefing Book' button enabled to allow the user to group national analyses together into a board-report type document.
3. All dashboards are designed on a screen resolution of 1024 x 768 pixels to prevent horizontal scroll bars being displayed (except where wide tables of data are required).

Examples

Where applicable, the examples included in this document contain fictional data only. The names and other personal details are fictional although look realistic enough to provide a useful example.

Position Analysis Dashboard

Description

This dashboard is designed to provide the user with information around positions created within workstructures as at a specified effective date.

Allocation

This dashboard is available to the following URPs:

XXX BI Administration
XXX Finance Reporting
XXX Finance Reporting and Hub Mapping
XXX HR Administration
XXX HR Administration (With RA)
XXX HR Management
XXX Local Workstructures Administration

Summary Tab

Description

This analysis provides authorised users with position related information at a summary level as at the user specified effective date. This includes FTE and Headcount variance reporting.
