Unallocated Vehicles.....	6

Design Assumptions

The following design assumptions have been made and can be applied to all analyses and dashboards:

1. All analyses have an export button to enable the user to export to their format of choice.
2. All analyses have an 'Add to Briefing Book' button enabled to allow the user to group national analyses together into a board-report type document.
3. All dashboards are designed on a screen resolution of 1024 x 768 pixels to prevent horizontal scroll bars being displayed (except where wide tables of data are required).

Examples

Where applicable, the examples included in this document contain fictional data only. The names and other personal details are fictional although look realistic enough to provide a useful example.

Vehicle Management Dashboard

Description

This dashboard provides the necessary information to allow users to view all vehicles that have been allocated to staff members, and those that have not been.

Allocation

This dashboard is available to the following URPs:

XXX BI Administration

XXX Vehicle Administration

XXX Vehicle Administration & Expenses

XXX Vehicle Administration & Payroll Data Entry

Vehicle Allocations

Description

This analysis provides the necessary information to allow users to view all vehicles that have been allocated to staff members.
